

# The VeraSci Difference: Alzheimer's Disease

## Scientific Expertise

- World-renowned scientists
- Industry thought leaders in cognitive, clinical, and functional assessments
- Alzheimer's disease & MCI experts
- Alzheimer's disease clinical trial expertise- including remote administration
- Scientific lead on the largest Alzheimer's Disease secondary prevention trial

## Pathway eCOA

- Easy-to-use, single device
- 100+ assessments and translations
- Audio-recording capabilities
- Full offline capability
- Automated and assisted scoring to reduce errors
- Real-time data capture and integrated data review capabilities
- Built-in data checks, with the capacity to flag rating inconsistencies and missing data
- Data transparency for sponsors, CRAs, and sites in real-time with remote monitoring capability
- Reduces data entry and source data verification time

## Rater Training and Certification

- Developed by experienced clinicians with input from seasoned site raters
- Differentiated training based on experience and expertise
- Rigorous follow-up driving timeline adherence
- Best in class eLearning portal, fully auditable
- VeraSci takes ownership and responsibility

## Data Review

- Standard two day turn around, expedited upon request
- Expert data review and centralized monitoring proven to reduce test administration and scoring errors
- Remote review and monitoring of study data
- Clinical interview endpoint review by experienced AD-clinicians, via audio recording
- Cognitive endpoint review by experienced, calibrated team of internal reviewers
  - In-house biostatisticians interpreting your data
  - Study specific data transfers in SDTM format following CDISC guidelines for all scales

## On-demand Reporting

- Data sortable by sites
- Summary of the number administrations for each assessment, available to sort by visit

- Query status, sortable by open/closed queries, sortable by site
- Report of invalid data
- Reporting of flags for eligibility of safety data
- Flags/reports for incomplete assessments
- Identification of assessments that do not correlate
- Additional reports can be purchased and customized as required by the needs of the trial

## Remote Assessments

- HIPAA compliant Zoom and other sponsor selected systems
- Conducted by rater at home via Pathway eCOA or pen/paper
- Remote specific training materials
- Administration recommendations
- Provisioning iPads directly to subjects to keep at home or screen share via web browser
- Remote monitoring of subject data via Pathweb portal with ability to issue queries
- Clear, lay-person instructions introducing each scale to subject and caregiver
- Study Help Desk Support for subjects and caregivers
- Remote Motor and Cognitive assessment experience

## Customer Support

- 24/7 Live global help desk support
- 100% email queries responded to within 2 hours
- Over 97% issues resolved within 24 hours

## Translation and Cultural Adaptation

- In-house language services
- Flexible, scalable, accurate, on-time and cost-conscious
- 15+ years experience
- ATA and ISO 17100 certified
- 99% first-time accuracy
- 100% on-time delivery
- Cognitive debriefing and pilot testing
